**Subject:** [External] Solar costs

Please do not allow Dominion Energy to change the rates or to add additional fees to our solar energy. We switched to solar several years ago and spent 40,00 installing panels on our home in order to reduce our costs and to be environmentally conscious. If these rates go into effect, we will not recoup our investment as we had been led to believe.  
Dominion is bucking the national trend toward renewable energy. They would do better to embrace the changes instead of thwart them.  
Please DO NOT ALLOW DOMINION TO ADD THESE PROPOSED FEES.

Sincerely,  
Deborah Reinhold
